LIBERATED GROUNDS

LIBERATED GROUNDS OPEN STEWARDSHIP LICENSE (LG-OSL 1.0)

Issued with IMEX — Integrated Motion of Earth eXpressed (2025)

PREAMBLE

This work is released in the spirit of stewardship, not ownership.

Time is not a commodity to be sold, patented, or controlled. It is a shared inheritance of all beings living on Earth, and no state, empire, corporation, or individual may claim exclusive authority over its structure or meaning.

IMEX is offered into the world as a commons-based invention: free to study, free to teach, free to implement, free to adapt — but never to enclose, privatize, extract, or erase the source from which it came.

This license exists to ensure that knowledge circulates, not concentrates; that collective tools remain collective; and that the future does not inherit another system of control disguised as measurement.

Liberation is not a slogan — it is a structure. This license is one such structure.

SECTION 1 — GRANT OF RIGHTS

The Licensor (Angel “Ime X” Adams, on behalf of Liberated Grounds) grants to all persons the irrevocable right to:

1. Use, study, reproduce, display, and distribute this work
2. Adapt, translate, or build upon it
3. Implement it in software, education, culture, research, or practice
4. Share any derivative works under the same open terms

SECTION 2 — CONDITIONS

Use of this work is permitted only under the following conditions:

1. **Attribution Required**
   All public use must credit:
   “IMEX — Integrated Motion of Earth eXpressed, created by Angel ‘Ime X’ Adams / Liberated Grounds.”
   Share-Alike Required

Version 1.0, 05 November 2025 — Copyright © 2025 Liberated Grounds

Any adaptation, variation, or implementation **must remain open-source** and licensed under this same license or a license fully compatible with it.

2. **No Ownership or Enclosure**
   This work **may not** be patented, trademarked, copyrighted, or otherwise enclosed as private property, in whole or in part.

3. **No Erasure of Source**
   No derivative work may remove origin, rename IMEX as if independently created, or conceal authorship.

4. **Commercial Use**
   Commercial use is permitted **only if attribution and open access terms remain intact.**
   No exclusive rights, no paywall over the core method, no proprietary fork.

SECTION 3 — NON-PATENTABILITY CLAUSE

No person or entity may file or enforce a patent claim on IMEX or any derivative system based on its core mathematical, structural, or calendrical principles. Any such attempt is void under this license and may be publicly challenged using this publication as prior art.

SECTION 4 — INTENT OF LICENSE

This license exists to:

- Prevent privatization of cosmological knowledge
- Keep timekeeping systems in the public domain of Earth's people
- Ensure collective stewardship over systems that govern collective life
- Protect cultural, scientific, and spiritual integrity of the work
- Establish a legal framework for **liberation-based invention**

SECTION 5 — IRREVOCABILITY

This license cannot be revoked, reversed, or restricted at a later date — by the author, heirs, institutions, corporations, or governments.

Once released, IMEX remains open forever.
